

### **REMARKS**

In the Office Action, claims 1-37 were pending, and claims 1-37 were subjected to a restriction requirement. In the Office Action at page 2, number 1, the Examiner divided the pending claims into the following distinct inventions:

Invention I - claims 1-9 drawn to a method of making a coated substrate (classified in class 427, subclass 402);

Invention II - claims 10-15 drawn to a method of making a laminated article (classified in class 156, subclass 99);

Invention III - claim 16- drawn to a method of making a coated article (classified in class 427, subclass 331);

Invention IV - claims 17-20 drawn to a laminated article (classified in class 428, subclass 411.1); and

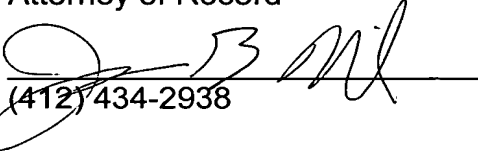

Invention V - claims 21-37 drawn to an article (classified in class 428, subclass 426).

In response to the Examiner's restriction requirement, Applicants elect claims 1-9 (Invention I) with traverse. Applicants elect with traverse because it would not constitute a serious burden for the Examiner to examine all of the claims in a single application.

If there are any additional issues, the Examiner is requested to contact Applicants' attorney at the telephone number provided below.

Respectfully submitted,

JACQUES B. MILES  
Registration No. 42,888  
Attorney of Record
